

Dear guests,

the competent authorities decided at short notice on Friday, 13th of March, to temporarily close the Therme Erding thermal spa due to current developments. We would have liked to have informed you about this earlier and would like to apologize for any circumstances.

Health is our top priority, so we follow the state government's request to close the Therme Erding thermal spa completely. We know how much you enjoy the hours with us and would have liked to continue to give you the opportunity to take a short break under palm trees. However, health is our most important good, the common good takes precedence. We use the time to bring forward our annual renovation work as much as possible. After this beauty care for our paradises, all our attractions are available to you.

You can find out when the thermal spa world reopens via our homepage, on social media or via our e-mail newsletter: <https://www.therme-erding.de/infos/newsletter/>

If you have any questions, please call +49 8122 - 550 0 or by e-mail to: [kundenservice@therme-erding.de](mailto:kundenservice@therme-erding.de).

In addition, our social media team is daily available from 8 a.m. to 10 p.m. by direct message via Facebook.

Stay healthy, we look forward to your next visit,

Your team at Therme Erding
