NELSON'S CHRISTMAS COUNTDOWN CRAFT!

Can't wait for Christmas to arrive?
With Nelson's homemade Christmas countdown chain, the days will fly by!
Every day, you get to remove one link from the chain –
and when only Nelson's face is left, it's finally Christmas Eve!

What you'll need:

- Colourful paper or construction paper
- Scissors
- Glue, sticky tape or a stapler
- Googly eyes
- pens
- A template of Nelson's head

HOW TO MAKE IT:

STEP 1 Prepare the paper strips:
Cut out 24 colourful paper strips. Each strip represents one day from 1 to 24 December.

STEP 2 Make the Christmas chain:
Turn each strip into a loop and link the loops together. You can use glue, sticky tape or a stapler to secure them.

STEP 3 Create Nelson's face:
Print out the template of Nelson's head and decorate it with googly eyes and colourful pens. Attach it to the last link of the chain.

STEP 4 Hang it up and count down:
Hang your Christmas chain somewhere you can easily reach it. Every day, remove one link.

Christmas is here! When only Nelson's face is left, it's finally Christmas Eve!

Nelson's craft tip: Why not decorate your Christmas chain with stars, snowflakes or little Christmas pictures? Make it as colourful and cheerful as you like!

Have fun crafting and enjoy a magical countdown to Christmas!
Love, Nelson!
